LOGNOTE -- Chief, Operations Group, 3 January 1983

1. [] -Former Nicosia Bureau monitor []
phoned from New York to say he had received a letter from
[] saying Nicosia was looking for monitors and that
[] should apply to be rehired. I told [] that there was no
position in Nicosia open to him. He then asked about Tel Aviv and
I replied there was no position for him there either. [] then
went into a long explanation of why he had had trouble as a monitor
in Nicosia and of how he had become disenchanted with architectural
work in New York; [] said he is now certain FBIS is where he
will find happiness and asked to see me to try to convince me to
rehire him. I explained that even if he convinced me, FBIS manage-
ment has decided not to rehire him and that a session with me would
do no good. [] said he was distressed that I would not even see
him but I told him in my view his coming here from New York would be
a waste of his time and money. []
